

January 25, 2010

Members of the Naval District of Washington FOP:

This information is offered to members of the NDW FOP Union and to the Police Force in general. Chairman Meely and the labor committee want to take this opportunity to ensure everyone that the Union has an agenda set forth to accomplish goals that serve the expectations of the Officers. These goals include increased pay, quality training and a well updated police retirement package.

Another important goal is to have all of our Officers cooperate on one accord. There is power in numbers. In the past, we have all allowed the morale of the Police Force to fall to the point of confusion and apathy. As a Force, we must unite behind good leadership and join in to fight the good fight.

All of the Officers on our Force, for the most part, are hard working, descent men and women. We are good police officers who take our jobs seriously and have an interest in upward mobility and employment opportunities.

Our Union is working diligently to correct the many problems we face. Even more important, each officer must first work to correct themselves. Let's begin by not allowing our morale to keep us from having a healthy desire to personally make a commitment to improve ourselves on an individual basis. Self correction prepares one to unite with others much more easily and enables a positive commitment.

Also, to overcome confusion, see updated information from your NDW FOP Union at www.fopndwlaborcommittee.com or call (202) 573-2654.

Thank You!

Press Secretary
